RESPONSE:

P301+P310 If swallowed: Immediately call a Poison Center / doctor.

Date Revised: 10/1/14

Date Printed: 4/1/15

P301+P330+P331	If swallowed: Rinse mouth. Do NOT induce vomiting.					
P303+P361+P353	If on skin (or hair): Take off immediately all contaminated					
clothing. Rinse skin with water (or shower).						
P304+P340	If inhaled: Remove person to fresh air and keep comfortable for					
breathing.						
P305+P351+P338	If in eyes: Rinse cautiously with water for several minutes.					
Remove contact	lenses, if present and easy to do. Continue rinsing.					
P310	Immediately call a POISON CENTER/doctor/ emergency responder.					
P312	Call a POISON CENTER/doctor if you feel unwell.					
P321	Specific treatment (see on this label)					
P322	Specific measures (see on this label)					
P330	Rinse mouth.					
P333+P313	If skin irritation or rash occurs: Get medical advice/attention.					
P342+P311	If experiencing respiratory symptoms: Call a Poison					
Center/doctor.						
P361+P363	Take off immediately all contaminated clothing and wash before					
reuse.						
P363	Wash contaminated clothing before reuse.					
STORAGE :						
P403+P233	Store in a well-ventilated place. Keep container tightly closed.					
P405	Store locked up.					
	P303+P361+P353 clothing. Rinse P304+P340 breathing. P305+P351+P338 Remove contact P310 P312 P321 P322 P330 P333+P313 P342+P311 Center/doctor. P361+P363 reuse. P363 STORAGE: P403+P233					

DISPOSAL:

P501 Store separately. Dispose of contents/ container in accordance with local/ regional/national /international regulations.

====== SECTION 3 -	COMPOSITION/I	ENFORMATION O	N INGREDIENTS ====================================

			NOT ESTABLISHED

* Chemical(s) that are chronic health hazards. Refer to section 3 for further information.

PRIMARY ROUTES OF EXPOSURE:

Skin contact.

EFFECTS OF ACUTE EXPOSURE:

EYES: Corrosive to eyes. Contact with eyes may cause severe irritation and burns.

SKIN: Corrosive to skin and mucous membranes. Contact with skin may cause severe irritation and burns. May be absorbed through skin in toxic amounts.

INHALATION: Inhalation of vapor or mist can cause irritation of nose, throat and lungs and lead to headaches and nausea.

INGESTION: Not an anticipated route of exposure. Small amounts are not expected to be harmful. Can cause gastrointestinal irritation, nausea, vomitting and diarrhea. Small amounts aspirated into the respiratory system during ingestion or vomiting may cause mild to severe pulmonary injury.

SAFETY DATA SHEET

Date Revised: 10/1/14

Date Printed: 4/1/15

CHRONIC HEALTH EFFECTS:

Although some components may indicate chronic exposure effects, no effects are anticipated under normal use conditions due to the relatively low proportion in the total mixture.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE:

No known effects on other illnesses.

EYES: Flush with large amounts of water for 15 minutes, lifting upper and lower eyelids. If irritation persists seek medical attention.

SKIN CONTACT: Wash contaminated area with soap and water. Remove and launder contaminated clothing. INGESTION: If a large amount is ingested, give water or milk and induce vomitting. Seek medical attention. INHALATION: Remove victim to fresh air and provide oxygen if breathing is difficult. If breathing has stopped administer artificial respiration. Seek medical attention if condition persists.

FLAMMABLE LIMITS IN AIR BY VOLUME- LOWER: n/a EXTINGUISHING MEDIA:

This material will not burn in its liquid state unless heated above its flash point. Dried films may burn and can be extinguished by water spray, foam, dry chemical or carbon dioxide.

UPPER: n/a

SPECIAL FIREFIGHTING PROCEDURES:

Persons exposed to products of combustion should wear self-contained breathing apparatus and full protective equipment. Isolate danger area, keep unauthorized personnel out.

UNUSUAL FIRE AND EXPLOSION HAZARDS:

There is the possibility of pressure buildup in closed containers when heated. Water spray may be used to cool these containers.

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:

Do not let uncured spilled or leaking material enter watercourse. May be toxic to aquatic life. Absorb with oil-dri or similar inert material. Sweep or scrape up and containerize. Rinse affected area thoroughly with water. Wear appropriate protective equipment.

HANDLING INFORMATION:

Employees who come in contact with this material must be trained in accordance to 1910.1200 of the Hazard Communicatin Standard. Wear chemical resistant gloves and protective clothing to minimize contact. The use of respiratory protection is advised when spraying because of mist and dust overspray.

STORAGE INFORMATION:

Keep containers tightly closed. Use and store material in cool, dry, well-ventilated areas away from heat, direct sunlight, hot metal surfaces, and all sources of ignition. Post "No smoking or open flame" sign. Store only in approved containers. Keep away from incompatible materials (see section 10). Protect containers against physical damage. Indoor storage should meet OSHA standards and appropriate fire codes.

OTHER PRECAUTIONS:

All empty containers should be disposed of in an evironmentally safe manner in accordance with all governmental regulations.

RESPIRATORY PROTECTION:

No special requirements under normal use conditions. In confined areas, or ares with poor ventilation, engineering controls should be used to minimize exposure. Use NIOSH/MSHA approved respirator if conditions warrant.

VENTILATION:

General room ventilation is adequate.

PROTECTIVE GLOVES:

Prevent prolonged or repeated contact by wearing chemical resistant gloves and other appropriate protective clothing. Launder contaminated clothing before reuse.

EYE PROTECTION:

Wear safety glasses to reduce eye contact potential. Chemical safety goggles (ANSI Z87.1 or approved equivalent) are appropriate if splashing is likely. Eye washes must be available where eye contact can occur.

Date Printed: 4/1/15

Date Revised: 10/1/14

OTHER PROTECTIVE CLOTHING OR EQUIPMENT:

A source of clean water should be available for flushing eyes and skin. Showers should be available if larger spills are possible.

WORK/HYGIENIC PRACTICES:

Efforts should be made to minimize contact and spills. Always wash hands before eating, drinking, or smoking. Clean up spills promptly. Follow OSHA and company guidlines.

ODOR: Amine or ammonia odor SPECIFIC GRAVITY (H2O=1): .97 BOILING RANGE: COLOR: Various colors SOLUBILITY IN WATER: Dilutable VAPOR DENSITY: Heavier than air. EVAPORATION RATE: Slower than nBuAc

COATING V.O.C.: 17 g/l (0.14 lb/gl)

STABILITY:

Stable under normal conditions and handling.

CONDITIONS TO AVOID:

None known

INCOMPATIBILITY (MATERIALS TO AVOID):

Avoid exposure to strong oxidizing agents and reducing agents.

HAZARDOUS DECOMPOSITION OR BYPRODUCTS:

Combustion may liberate toxic byproducts such as carbon dioxide, and carbon monoxide, various oxides of carbon and nitrogen. Thermal decomposition may liberate acrylic monomers and ammonia.

HAZARDOUS POLYMERIZATION:

Will not occur.

None known.

CARCINOGENICITY:

There is no data available to indicate any components present at greater than 0.1% may present a carcinogenic hazard. **REPRODUCTIVE TOXICITY:**

There is no data available to indicate any components present at greater than 0.1% may present reproductive toxicity.

TERATOGENICITY (BIRTH DEFECTS):

Triethylenetetramine is fetotoxic and teratogenetic when fed to laboratory animals.

MUTAGENICITY:

Triethylenetetramine has been found to be a direct acting mutagen in the ames assay.

ENVIRONMENTAL DATA:

Contains ammonia or amines which may be toxic to aquatic life. Nonylphenol is a marine pollutant.

______ SECTION 13 - DISPOSAL CONSIDERATIONS ______ This product does not meet the definition of hazardous waste under the U.S. EPA Hazardous Waste Regulations 40 CFR 261, however, state and local regulations may be more restrictive. Coagulate the emulsion by the stepwise addition of ferric chloride and lime. Remove the clear supernatant and flush to a chemical sewer. Incinerate liquid and contaminated solids in accordance with local, state, and federal regulations.

SHIPPING NAME:

UN2735, Amines, Liquid, Corrosive, N.O.S., (Secondary Polyetheramine), 8, III UN3066, Paint, 8, III

All ingredients of this product are listed, or are excluded from listing, on the US Toxic Subatances Control Act (TSCA) chemical substance inventory.

This product does not contain a chemical subject to the reporting requirements of SARA Title III, Section 313 (40CFR 372) above de minimis concentrations.

STATE SPECIFIC REQUIREMENTS:

This product contains a chemical(s) known to the state of California to cause cancer, birth defects or reproductive harm, which are subject to the requirements of California Proposition 65.
